# TRIP CALCULATOR

The Trip Calculator on ExpenseVoyage offers two convenient options for travelers to plan their expenses effortlessly. The Predict Your Amount feature helps users estimate the total cost of their trip by automatically calculating average expenses based on destination, duration, and travel style. This option is perfect for those who want a quick and easy way to budget their trip.

For those who prefer more control, the Custom Plan option allows users to manually input specific expenses such as accommodation, meals, activities, and transportation, giving a more personalized and detailed budget. Both options are designed to make trip planning seamless, ensuring users stay within budget and enjoy a stress-free travel experience.

The image shows the homepage of Expense Voyage's Trip Calculator. The background features a scenic mountain landscape with a hiker in the foreground. The main title "Trip Calculator" is prominently displayed in large white letters. Below the title, there are two main sections: "01. Prediction" on the left and "02. Custom Plan" on the right. Each section includes a descriptive paragraph, a representative image, and a red call-to-action button at the bottom.
